

2020 CIRS Global GHS Training Courses FAQ

Find more updated information here

CLP and SCIP Database (August 5, 2020)

Q1: In the case of Belgium where there are 3 languages, are all three languages on 1 label or is it 1 label per language?

A1: According to the CLP regulations in the case of Belgium where there are three languages, it is possible to put all three languages on the same label. Similarly, it is possible to put more languages on the label than those required by the country once all of the details are maintained in each language and the legibility is not impacted

Q2: Is this presentation available for reference?

A2: All of the presentations are published on our website after the completion of each webinar and are available to download for free. Please click here to be directed to the page where you can obtain them

2020 CIRS Global GHS Training Courses FAQ

Brief introduction of this series course

Due to the the outbreak of COVID-19 we have been unable to provide this training in the usual face to face manner. CIRS is proud to announce a series of training webinars on Global GHS regulations for our clients who may be:

- Product Safety and Regulatory Affairs Professionals
- Purchasing or Sourcing Manager Chemicals
- EHS Professionals and Consultants
- MSDS Author and Hazard Communication Officer
- Product Registration Specialist
- Import/Export Manager Chemicals

This series of training course is initiated and planned by David Wan, the Managing Director of CIRS Ireland. Information correctness and completeness is guided by Cloris Pan, the Leader of CIRS GHS service center. Webinars are provided by CIRS in conjunction with our partners in Japan (JEMAI) and Russia (ECOMOLE & Ecovostok).

This course includes webinars activities and advanced articles.
